## General conditions of sale

### PRICES

This price list is for informational purposes only and does not constitute a binding offer. Stenheim reserves the right to modify it at any time without prior notice, including with respect to undelivered goods. In the event that such a modification results in a price increase, the customer shall have the right to withdraw from the contract, subject to a termination fee equal to 20% of the originally agreed total price, to cover production, administrative and management costs already incurred by Stenheim. All prices are quoted in Swiss francs (CHF) per pair of speakers, including Swiss VAT (8,1%).

### DELIVERY DATES

Delivery dates are estimated as accurately as possible. However, due to the complexity of Stenheim's production process and the potential delays from suppliers, delivery timelines can only be upheld to the best of our ability.

Stenheim is not liable for payment of damages, interest or any kind of indemnity whatsoever relating to delivery delays or undelivered goods.

### PAYMENT

All invoiced amounts are payable in full and are quoted net, without any deduction or discount.

Invoices must be paid in full either in advance or, at the latest, prior to the shipment of goods. A minimum deposit of 50% is required to confirm the order, unless otherwise agreed in writing between the parties.

In the event of non-payment within thirty (30) days of the invoice date, the customer shall be deemed in default, and the outstanding amount will accrue interest at the prevailing bank rate, with a minimum of 5% per annum.

If the invoice is issued in Swiss francs (CHF), payment must be made in the same currency; payments in other currencies or mixed currencies will not be accepted. In the event of a prepaid order being cancelled, Stenheim will refund the prepaid amount minus a 20% deduction to cover production, administrative and management costs already incurred.

### VALIDITY OF PRICELIST AND OFFER

This price list replaces all previous editions. It may be changed at any time, without prior notice.

Unless otherwise stated, our offers are valid for 30 days from the date of issue.

### WARRANTY

All Stenheim Products are precision-engineered to provide years of enjoyment.

All Stenheim Products are covered by the statutory warranty against defects in materials and/or workmanship as defined by the laws of the country in which they are sold. As a result, the scope and duration of this statutory warranty may vary from country to country.

In addition to the statutory rights granted to the owner under applicable law, Stenheim offers and **Extended Warranty** that runs concurrently with the standard legal warranty, as outlined below. Passive Stenheim Products are warranted against defects in materials and workmanship for a period of **5 (five) years** from the original date of purchase. Active electronic components are covered under the same terms for a period of **3 (three) years**. Please note that certain products may contain both passive elements (e.g., standard loudspeakers) and active components (e.g., active crossovers, amplifiers).

To qualify for coverage under the Extended Warranty, the following conditions must be met:

- The original sales receipt, clearly indicating the date and place of purchase as well as the name of the dealer, must be presented.
- **The Product must be officially registered online by the final customer with Stenheim Suisse SA within thirty (30) days of the purchase date:**  
<https://www.stenheim.com/warranty-registration>
- The Product must have been purchased from an Official Stenheim Dealer.

Furthermore, the Stenheim Extended Warranty is subject to the following restrictions:

- This Warranty is valid solely for the original owner of the covered Product and is non-transferable, except in cases where the Product is purchased by a subsequent owner from an Authorized Dealer who has certified the Product in accordance with Stenheim Suisse SA's standards and requirements, and such certification has been formally accepted by Stenheim Suisse SA. In such cases, the Extended Warranty shall remain valid only until the end of the original Extended Warranty period applicable to the Product.

In all cases, for both Statutory and Extended Warranty to remain valid, the following conditions must be met:

- The Product must not have been disassembled, modified, or tampered with by anyone other than an expressly authorized representative of Stenheim Suisse SA.
- The Product must not have been misused or operated in conjunction with unsuitable, inappropriate, or faulty equipment.
- The Product must not have been damaged as a result of power surges, lightning strikes, electrical storms, water exposure, fire, excessive heat, extreme weather conditions, or any other force majeure event beyond the control of Stenheim Suisse SA.
- The Product must not have sustained damage during transportation.
- The serial number label(s) must be intact and must not be defaced, altered or removed.

If the owner suspects that their Stenheim Product is malfunctioning, they should contact either the nearest authorized Stenheim dealer or the dealer from whom the Product was originally purchased. The authorized dealer will assess the issue and coordinate any necessary repairs.
